

## Evaluation CAPN 2015

Each year the coordination of CAPN asks participants to review the archaeological field.

The evaluation by the participants is useful to guide future adjustments in the design and operation of the archaeological field camp.

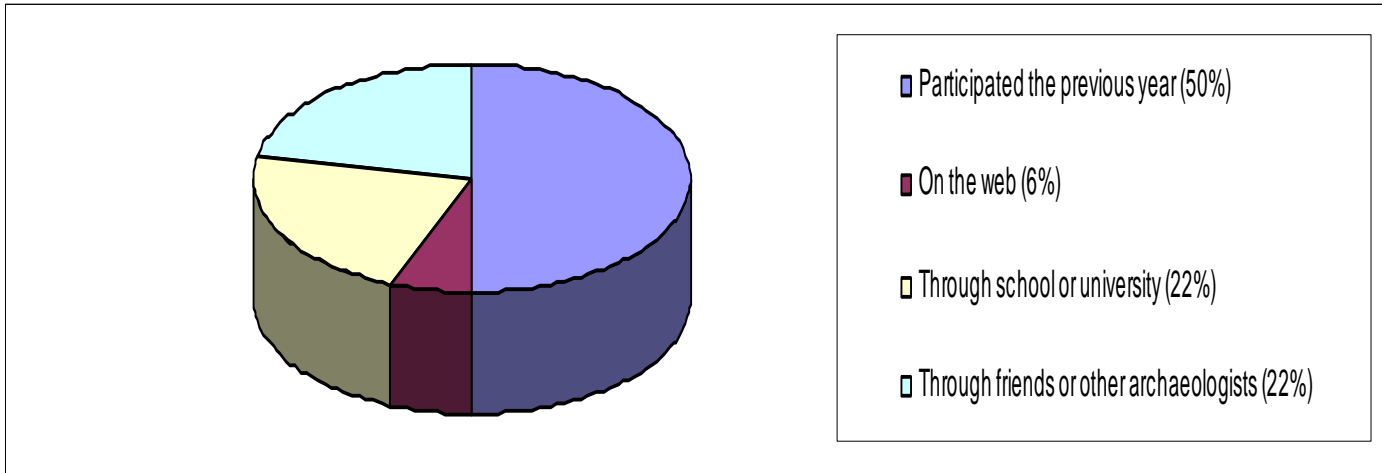

This review was based on the response, anonymously, to a questionnaire, located in an online platform (Alcaide). The participants had prior knowledge of the questionnaire content.

On CAPN 2015 18 answers were recorded. The director of the excavation, the sector coordinators and the remaining organization did not respond to the questionnaire.

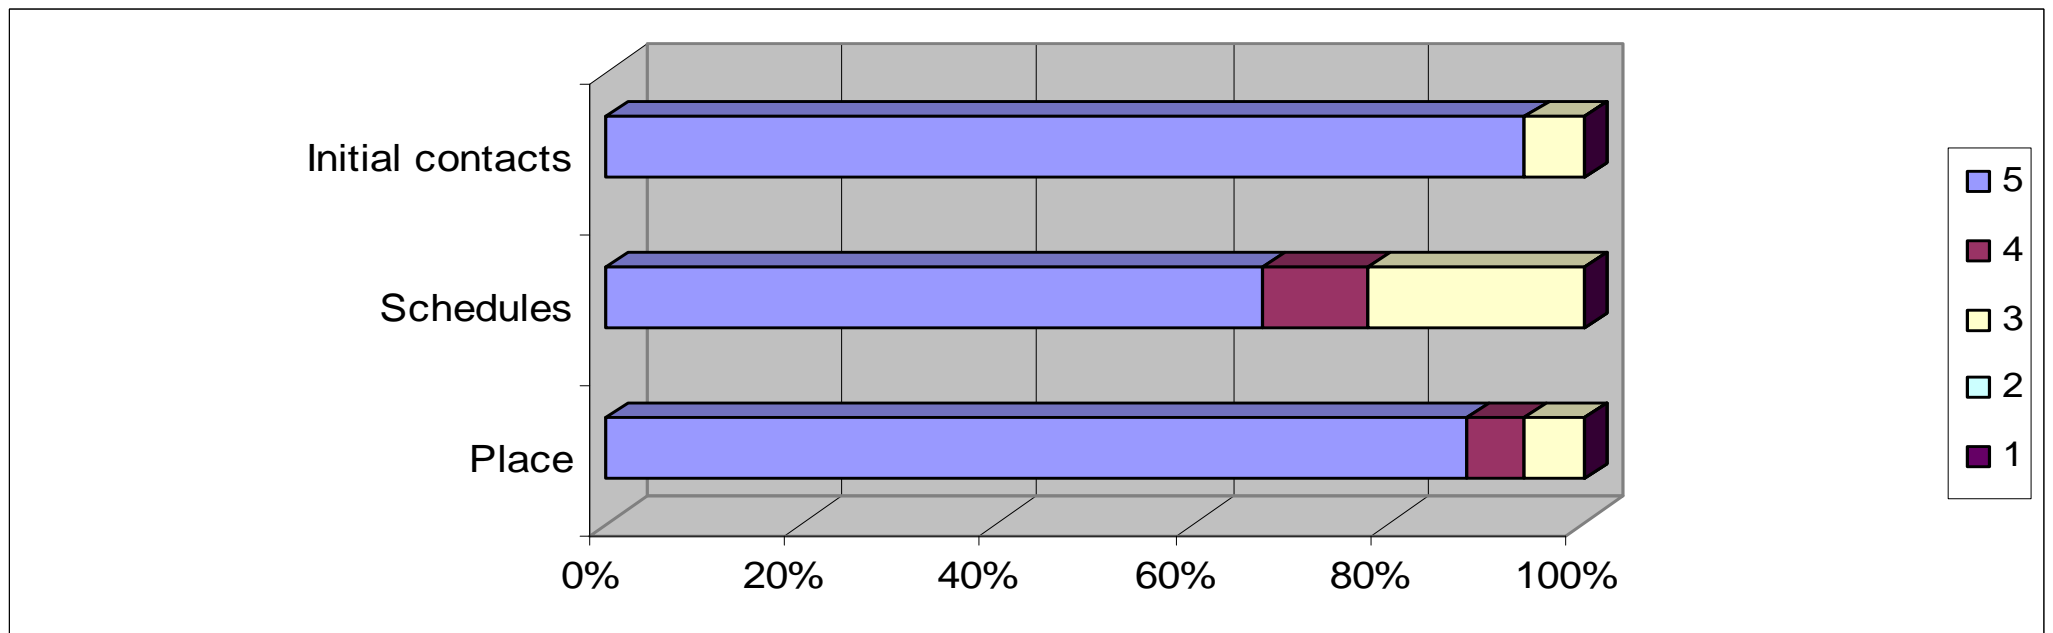

The range of satisfying answers ranged from 1 (very dissatisfied) to 5 (extremely satisfied). Intermediate values were 2 (not very satisfied), 3 (satisfied) and 4 (quite satisfied).

As global assessment responses manifest a high degree of satisfaction. The average reached 4,6 (from 1 to 5).
